

## Carers News! for January is now available online

This month's edition was emailed last week to our carers that have registered to receive the Enews. We've had some great feedback on the new format, and the PDF copy for this month is now available on online. We're also delighted to announce this month's PDF features 'active links' for each news item, which makes it easy to access more detail from relevant web pages. [Click here to read a copy.](#)
