

Carers UK We Care. Don't you? campaign

Earlier this year Carers UK launched their *We Care. Don't you?* campaign following the publication of their Caring and Family Finances Inquiry which showed that, on top of existing financial hardship, carers now face £1 billion cuts to their welfare by 2018.

Carers UK will be sending a letter to the Government and all MPs, which they would like carers and former carers to sign – you can read the letter and add your signature online [here](#).

Please consider signing their campaign letter to the Government (by 10th September)
