

Census 2021 question about providing unpaid care

Census 2021 is being held on 21 March 2021. The survey happens every 10 years and one of the questions will be about the provision of unpaid care for any person of any age. We're encouraging everyone that provides unpaid care to tick yes to question 24 and help build a better picture of carers across Sheffield. [Click here for more information](#) about how it works and for links to some FAQs.
